

Data Collection Activity Matrix

Use this activity matrix to work with your team to plan how you will collect data to evaluate embedded instruction. Include a plan for evaluating your implementation of learning trials (Am I doing it?) and child progress (Is it working?). Write down who will collect data and how often data will be collected.

Activity	Data Collection	Child:	Child:	Child:
	Learning Target(s)			
	Am I doing It?			
	Is it working?			
	Learning Target(s)			
	Am I doing It?			
	Is it working?			
	Learning Target(s)			
	Am I doing It?			
	Is it working?
